

### Step 1

Print and cut out all the pieces. Get an adult to help and be very carefully with sharp objects.

*Tip: You can glue the printout to cardboard and then cut out to make a more solid trophy*

### Step 2

Fold along all the dotted lines

*Tip: Score the lines with a knife or pen to make folding easier and more accurate*

### Step 3

Areas that need to be joined have a tab sticking out. Secure the tabs to their matching side and either glue or tape to hold the structure in place.

*Tip: Double sided tape will work best but you can use regular tape or glue*

### Step 4

Assemble 3 pieces together, starting with the cup section on the top, then the stem in the middle and finally the base. Also attach your message/title onto the front of the base

### Step 5

Attach handles

### Present your cup!

You can print out and colour your own customised trophy  
Or you can try painting it to get a more polished look
